

Leading edge bathroom furniture including vanities, mirror cabinets, tower units and floating shelves.

Designing and manufacturing bathroom furniture for over 30 years. We value and integrate high-end design, quality, durability and innovation.

We offer a wide range of made to order products, as well as the ability to craft bespoke pieces that fit your style or space. Whether you're a specifier, retailer or just looking for inspiration we can help you find the right solution. So get creative, the world is your oyster!

Natural Oak 2DRW Side by Side
 Rounded Floating Mirror 900

NEW ZEALAND MADE

Buying New Zealand Made means quality you can trust. All of our cabinets are designed, manufactured and assembled locally at our factory in Christchurch.

ENVIRONMENTAL CHOICE

A better and cleaner New Zealand. We follow best practices in ways to reduce our carbon footprint and create processes in our factory that are mindful of the environment for future generations.

QUALITY GUARANTEED

Proudly stood by the quality of our products for over 30 years. Using high quality materials and top workmanship is the key to keeping our customers' satisfaction.

SUSTAINABLY SOURCED TIMBER

The use of sustainably sourced and ECNZ certified wood products is our focus in reducing our environmental footprint. We continue to search for alternative products and always willing to discuss new products for our environmentally conscious customers.

FULLY CUSTOMIZABLE

Modify an existing design, or create something unique to fit your style or space. We can manufacture almost any idea, sketch or image as well as source unique materials to match, whether it be from custom species of real timber, laminates or melamine from any New Zealand supplier.

MOISTURE RESISTANT

All panels are protected and sealed with the latest moisture resistant technology which provides a smooth and seamless finish. We go above the industry standard to provide the most durable product available.

SOFT CLOSE

Soft close is always standard across all products with a smooth and effortless action. The Hettich hardware used is German made and comes with a lifetime warranty.

TIMBER FINISHES

Our Timber veneer finishes are 100% real American White Oak bonded to moisture resistant MDF. We use the most durable processes available to seal the timber panels which is designed for commercial and marine applications. Each timber product has its own unique natural colour and grain so please order all products to be installed in the same room at the same time.

OAK VANITY TOPS

An oak vanity top will bring a new level of natural elegance into your bathroom and turn your vanity into a fine piece of furniture. Although the tops are finished in the most durable materials available there is still a level of care required. A waxed based furniture polish will protect and maintain the tops for years to come. We recommend a product such as Mirotone Sprayglow.

SOLID SURFACE TOPS

Known for its beauty similar to natural stone with an incredible soft touch feel our solid surface tops are a highly durable and easy to maintain option. Ideal for demanding environments, solid surface tops are nonporous, stain and heat resistant and repairable.

They can be custom made to any size and have an option for an integrated basin. All solid surface tops are supplied uncut or drilled. The tops can easily be cut or drilled with a router, hole saw, or jig saw in the same way you would cut wood. This allows for any top and basin combination to be installed on the vanity and changes made up to the very last minute.

ARCO TOPS

Arco tops are designed to allow for any tap configuration therefore are not supplied predrilled. A 35 mm drill bit is provided with every Arco top and it is the responsibility of the installer to drill the tap hole if required.

MADE TO ORDER

Due to the bespoke nature of our range and the materials used all products are made to order. Our lead times vary throughout the year so please get in contact to find out our estimated dispatch times.

FREIGHT

A tracking number will be provided for all freighted items. Any damage claims must be made within 24 hours of receiving the goods.

WARRANTIES

Five (5) year warranty from date of purchase. Proof of purchase needs to be supplied by the purchaser when making a claim.

We warrant that in the manufacture of its products only high quality workmanship and materials have been used. If within the warranty period there should be a fault with either the materials or workmanship we will either (at its sole discretion) repair or replace the faulty product, but will not be responsible for removal and installation costs.

This warranty does not cover damage by improper installation, abuse, accident, excessive wear and tear, improper care and maintenance, natural causes (sunlight and water), water temperature above 55°Celsius, humidity and over environmental conditions.
